CUED - Engineering Tripos Part IIA 2026-2027 **Module Laboratory Report**

Student name		CRSID		Module number	

Use of generative AI statement – for completion by student

☐ I confirm that all guidance in the Department policy on use of generative AI has been followed in this work.

Describe your use (type, extent) of generative AI and your validation of any AI generated outputs in this work
(continue on additional cover sheet as needed)

Feedback to the student

☐ **See also comments in the text**

		Very good	**Good**	Needs improvmt
CONTENT	**Completeness, quantity of content:** Has the report covered all aspects of the lab? Has the analysis been carried out thoroughly?			
	Correctness, quality of content Is the data correct? Is the analysis of the data correct? Are the conclusions correct?			
	Depth of understanding, quality of discussion Does the report show a good technical understanding? Have all the relevant conclusions been drawn?			
	Comments:			
COMMUNICATION	**Structure, organization, clarity and presentation** Does the report provide a logical narrative. Are the figures/tables/references presented professionally?			
	Comments:			

Total	**/ 5**
Penalty for lateness	

The weighting of comments is not intended to be equal, and the relative importance of criteria may vary between modules. A good report should attract about 4 marks.

1 mark / week or part week.
Please refer to the online information regarding our extension policy.
