

# Modules, Extension Activities & Engineering Areas

Please also see the list of [Modules and Sets](#) for details of which modules will run and any restrictions on module combinations.

## Table of contents

- [Engineering areas](#)
- [Part IIA Extension Activities \(ExAs\)](#)

---

## Engineering areas

If you wish to qualify in a specific engineering area, at least six modules from your total of ten must fall within one of the engineering areas defined by the Faculty Board.

The title of the engineering area for which you are qualified will appear on each of your Part IIA and IIB transcripts. In some cases, you may be qualified for more than one engineering area, in which case all will appear on your transcript. It is not essential that your engineering area at Part IIB is the same as that at Part IIA.

NB. the module syllabus pages are the definitive source of information about pre-requisites for each module. A summary is also given on the [syllabus index page](#).

Engineering area	Coordinator
<a href="#">Mechanical engineering</a>	<a href="#">Dr G J McShane</a>
<a href="#">Energy, sustainability and the environment</a>	<a href="#">Professor S Hochgreb</a>
<a href="#">Aerospace and aerothermal engineering</a>	<a href="#">Dr J Jarrett</a>
<a href="#">Civil engineering</a>	<a href="#">Professor D Liang</a>
<a href="#">Electrical and electronic engineering</a>	<a href="#">Professor A Flewitt</a>
<a href="#">Information and computer engineering</a>	<a href="#">Dr J Sayir</a>
<a href="#">Electrical and information sciences</a>	<a href="#">Dr J Sayir</a>
<a href="#">Instrumentation and control</a>	<a href="#">Professor I Lestas</a>
<a href="#">Bioengineering</a>	<a href="#">Professor G Treece</a>

## General Engineering

If you do not wish to choose six modules from an engineering area you may instead qualify in Engineering (i.e. General Engineering). Students intending to qualify in General Engineering may choose any set of modules subject to the restrictions given in COMET.

In common with the other engineering areas General Engineering is accredited by one or more of the Professional Engineering Institutions. For further information see the [Accreditation of the MEng](#).

## Further advice

For advice on engineering areas and module choices go first to your Director of Studies. The staff listed above will be happy to provide expert advice on their Engineering Areas.

General queries about Manufacturing Engineering should be sent to the [MET Course Administrator](#); detailed queries about academic course content may be sent to [Prof Ronan Daly](#).

---

## Part IIA Extension Activities (ExAs)

To register for an Extension Activity, you need to do two things:

1. Sign up as soon as possible for a time slot for your chosen Activity, as described below. Use the sign-up sheet for your chosen ExA.
2. Please also [indicate your choice on COMET](#), so that we can ensure that everyone has signed up.

Activity & link to summary sheet	Access	Timing	Sign-up sheet location	S
<a href="#">Surveying*</a>	Open to all and recommended for:  4. Civil Engineering	End of Lent term (wk8) [& end of Michaelmas term, if needed] [NB Runs from 2pm on last day of lectures (Wednesday) until Friday afternoon]	<a href="#">Online</a>	<a href="#">Prof D</a>
<a href="#">Flow visualisation</a>	Open to all and recommended for:  1. Mechanical Engineering 2. Energy, Sustainability & the Environment 3. Aerospace & Aerothermal Engineering	Michaelmas and Lent terms	<a href="#">Online</a>	<a href="#">Prof N</a>
<a href="#">Hybrid Energy</a>	Open to all and recommended for:  1. Mechanical Engineering 2. Energy, Sustainability & the Environment 3. Aerospace & Aerothermal Engineering 8. Instrumentation & Control	Lent Term	<a href="#">Online</a>	<a href="#">Dr M C</a>
<a href="#">Product Disassembly</a>	Open to all and recommended for:  1. Mechanical Engineering 2. Energy, Sustainability & the Environment 3. Aerospace & Aerothermal Engineering	Michaelmas and Lent term	<a href="#">Online</a>	<a href="#">Dr M S</a> <a href="#">Prof A</a>
<a href="#">Technical feasibility studies/3D printer control</a>	Open to all and recommended for:  1. Mechanical Engineering	Michaelmas & Lent terms	<a href="#">Online</a>  link for additional slots on the <a href="#">Moodle page</a>	<a href="#">Prof S</a>

## Modules, Extension Activities & Engineering Areas

Published on CUED undergraduate teaching site (<https://teaching26-27.eng.cam.ac.uk>)

---

Activity & link to summary sheet	Access	Timing	Sign-up sheet location	
	5. Electrical & Electronic Engineering 6. Information & Computer Engineering 7. Electrical & Information Sciences 8. Instrumentation & Control			S C
<a href="#">Fundamentals of Biotechnology</a>	Open to all and recommended for: Lent term		<a href="#">Online</a>	D
	9. Bioengineering			
<a href="#">Language course</a>	Open to all students enrolled on a Michaelmas & Lent terms Language course		<a href="#">By email</a>	C

\*If this ExA is under-subscribed, the Michaelmas session will be withdrawn and only the Lent session will take place. Students will be contacted if necessary.

### General notes

- You should sign up for your ExA as soon as possible at the start of the Michaelmas Term (even for Lent ExAs). Do this before booking your module labs.
- Detailed arrangements for each ExA will be posted near the sign-up sheets.
- If you have any queries about an activity, you can ask the Lead Technician in the lab where the sign-up sheet is posted, or the staff member in charge.
- Each activity should occupy you for about 16 hours and has 20 marks of credit available.
